

Zoovy: order manager

Save time, assure accuracy
and drive more sales

Order processing is automated, fully integrated
and customizable

No more copying and pasting, no more switching from platform to platform to stay on top of incoming orders. Zoovy's unique order management system manages the order from the second it's placed to the moment it's shipped.

ZOM takes away the pain of common problems that keep your business from achieving its potential by integrating all the stages of an order, in one.

Control and manipulate your orders

- Automatically download products from your web store
- Collect orders from your web store, eBay, Overstock and Amazon, all in 1 place
- Manipulate and configure orders en masse
- Divide a single order into multiple orders
- Unify orders from a single customer
- Keep track of the order status at every step
- Run specialized reports based on merchants' criteria using ZOM's Dashboard Reports
- Distribute store credit with a single click
- Maintain employee accountability and productivity by tracking each shipment to the staff member that handled the package

Automatically stay in touch with customers

- Modify and research customer history
- Generate automatic emails to customers with order status or any changes, as well as tracking numbers
- Emails sent to customers increase future sales and augment credibility, since they include company logo, links to the merchant

web store and personalized marketing messages

- Send payment reminders

Stay organized with Quickbooks integration

- Edit invoices with a single click
- Quickbooks is automatically synced to ZOM, and is populated with new orders as they come in
- Quickbooks automatically creates invoices or sales receipts, which bear the merchant's company logo

Shipping made easy

- Shipping is fully integrated into ZOM
- Automatically print out FedEx, UPS or USPS labels
- Tracking numbers are automatically saved in ZOM
- Orders are tagged as "completed" once shipped
- Ship bulk orders in minutes

Since one of the biggest challenges in growing a successful online business is picking the right technology, Zoovy One's Order Manager is central to the merchant's efficiency and ongoing success.
