# Print Postage Easily

Zoovy coupled with Endicia equal order processing excellence

Print USPS postage quickly and easily directly from your computer

## Key

## Benefits

- Reduce Errors
- Save Time
- Increase Buyer Satisfaction

• Zoovy easily integrates with Endicia's USPS postage solution with just a few clicks, syncing all order information. Zoovy reduces the time needed for shipping and saves money on shipping errors, by simplifying your shipping process.

### Instantly Print USPS Postage

• There is no need to wait in post office lines when you can print official USPS postage directly from your computer onto your packing slips. Zoovy provides the ability to export orders directly to Endicia to print postage. There is no longer any cutting and pasting between applications, or re-entering data, which saves time and insures accuracy.

### Stealth Postage

• Prints valid USPS postage without price so customer's do not know what you paid to ship it. This helps reduce the buyer feeling overcharged for shipping.

### Free Delivery Confirmation

• With just a click of the mouse, get free delivery confirmations on all Priority Mail and email shipping notifications.

### Automatically Imports Tracking Numbers

• Zoovy Order Manager will automatically import the priority mail tracking numbers.

### Custom Label Designs

• Create custom mailing label designs to fit a custom label or package size.  
• The program which does this can be downloaded at no additional cost with an Endicia account.
