

Implementation assistance

Building successful business practices

Zoovy helps you get started the right way from day one

It's important to always start out on the right foot, and with Zoovy's free one-on-one implementation assistance, merchants do just that. Selling online can be a very profitable and rewarding business when done right. With over 600 features, Zoovy provides everything merchants need to build a successful online business, and Zoovy implementation assistance teaches them how to utilize these tools to their full capacity, leading to satisfying and lucrative returns.

With six years of experience in online selling technology, Zoovy software is a unique and cutting edge platform. By learning how to use these tools to their benefit, sellers achieve great success. Zoovy implementation assistance not only teaches merchants how to use the software, but also how to utilize best practices for running a successful online business with this innovative technology.

Powerful Technology

Because Zoovy software is so powerful, it is unlike most old fashioned methods of running a business. Zoovy implementation assistance teaches sellers how to employ this valuable technology to their benefit so they have an advantage over the competition.

Zoovy is constantly adding new features to keep merchants ahead of the game, and Zoovy implementation assistance alerts sellers of these cutting edge tools.

One-on-One Assistance

Experienced consultants that know the Zoovy software inside and out provide in depth and personalized assistance. As opposed to just reading a manual or tutorial, Zoovy's interactive assistance can be tailored and rephrased to the specific needs and goals of each e-business. Consultants help merchants identify a list of goals so they can get the best use out of all the Zoovy solutions.

With a live person to walk sellers through the process, sellers can ask questions and get immediate and relevant answers.

Utilizing the Versatile Software

Zoovy provides the most versatile functions to meet the needs of all types of businesses. Zoovy consultants help sellers identify the most valuable and relevant tools for each business and teach them how to optimize them to their benefit. Zoovy's scalable solutions meet the needs of all sizes of businesses, Zoovy consultants teach sellers how to use the features to help their business expand and grow, helping them get the most value out of the tools.

Establishing Best Practices

As an experienced and specialized company, Zoovy advises sellers to run their e-businesses in the most efficient and profitable manner.

Zoovy provides the most cutting edge business management solutions so sellers can learn best practices for the dynamic and fast paced world of online selling. Developing profitable and efficient business practices from the start helps e-businesses sell more and expand much faster.

Zoovy implementation consultants have a vested interest in the success of each merchant and provide genuinely valuable advice to help them succeed and grow.

Zoovy customers receive free one-on-one implementation assistance with their Zoovy packages.

Merchants simply login to their Zoovy account, select support and schedule an appointment with a Zoovy Implementation Consultant.

Zoovy consultants are available to help merchants with anything they may require including but not limited to the following topics:

- Setup
- Payment options
- Shipping
- Taxes
- Look and feel of website and auctions
- Contact information
- Product information for all marketplaces

In each consultation the Zoovy representative provides indepth step-by-step instructions on how to utilize the Zoovy features. Experienced consultants help sellers identify which features are relevant to their specific business and how to apply them to their businesses. With so many hi-tech features that work together, Zoovy implementation assistance is an invaluable resource for running a successful e-business.
