

Zoovy shipping bundle

powerful shipping flexibility

Customize shipping and handling
based on a number of unique variations
in 1 easy-to-use platform

To optimize the growth of their business, online sellers must select the right technology for their needs, and this technology must be highly customizable, scalable and profitable. Zoovy's Shipping Pro allows merchants to completely modify shipping methods and settings—a revolutionary tool even more powerful than Zoovy's standard shipping package.

Control your costs

- Use varying shipping calculations based on different criteria (ship-to location, product, subtotal of cart, etc.). Modify according to distance and other costly factors.
- Offer handling or insurance as their own line items in the shopping cart
- Assign different insurance values per product
- Mark up FedEx or UPS rates with a handling fee
- Mark up shipping costs for special or hard-to-ship items
- Disable/enable certain shipping methods for non-continental United States or APO/FPO U.S. locations
- Block shipment to certain countries

Give customers more options

- Offer delivery to local customers. This is a great marketing tool for brick and mortar businesses.. Word of mouth referrals are priceless.
- Offer customer pickup. Again, brick and mortar businesses stand to profit from this option
- Offer insurance per item based on weight or price
- Offer free shipping as a promotion.

When a high level, scalable solution is offered, business is streamlined and empowered, and is ready for growth. Since efficiency saves time, cuts costs and improves accuracy, sales are boosted. Zoovy Shipping Pro's numerous built-in options save time and protect the seller from hidden costs and unforeseen logistical complications.

With Zoovy Shipping Manager, you can manage all the details of your shipping, in one.
